

Bear Hound Diaries – Privacy Policy

Developed by Wesley Pingleton

Last Updated: December 28, 2025

Bear Hound Diaries is a mobile application developed by Wesley Pingleton. Your privacy is extremely important. This policy explains what data the app uses, how it is stored, and the choices you have.

Summary (Plain English)

• Your hunt logs belong to you • Data is stored only on your device using Apple Core Data • We do not collect, store, or view your data • No accounts, no tracking, no ads, no analytics • If you replace your phone, you must transfer your data manually • We comply with Apple privacy standards

1. Information Collected

We DO NOT collect personal information, accounts, tracking data, analytics, payment info, photos, videos, device identifiers, or IP addresses. WHAT THE APP DOES STORE (on your device only): hunt logs, notes, weather, terrain, photo/video links you choose, hound profiles, and optional stats. All data remains on your device only.

2. Where Your Data Is Stored

All data is stored locally using Apple Core Data. Nothing is sent to external servers. We do not sync, upload, transmit, or access your information.

3. Transferring Data to a New Phone

To keep your data you must back up your iPhone using iCloud Backup, encrypted Finder/iTunes backup, or Apple's phone-to-phone transfer. If the app is deleted without backup, your data will be permanently erased. The developer cannot recover deleted data.

4. Photos & Videos

Media you attach is stored locally. The app only accesses photos when you choose to import. Nothing is uploaded or analyzed.

5. Payments & Subscriptions

All payments are processed securely by Apple. We do not store or see billing information.

6. Children's Privacy

The app is intended for adults. No data is knowingly collected from children.

7. Security

Your data is protected by iOS system security and your device lock settings.

8. Sharing Data

You may manually share data if you choose. The app never auto-shares or uploads.

9. Third-Party Services

The app does not use third-party analytics, ads, or tracking tools.

10. Changes to This Policy

Any updates will be posted in-app or online.

What the App Does

Bear Hound Diaries allows users to log bear hunts, store photos & notes, and track hunting dogs. It does not track users, transmit data, or require accounts.
