Introduction

Thank you for using **Coon Hunter Diaries**, an iOS application created by Wesley Pingleton. Your privacy is important to us. This Privacy Policy explains how information is handled when you use the app. Coon Hunter Diaries is designed to respect your privacy and limit data usage to only what is necessary for hunting-related features.

1. Data Collection

Coon Hunter Diaries does **not** collect or transmit personal user data to external servers. The app does not collect device identifiers, usage analytics, or personal information.

2. Location Services

The app may request permission to access Location Services. This permission is used solely to support hunting-related features such as GPS tracking and location-based notes during hunts. Location data is used only within the app and is not transmitted, shared, or sold.

3. Data Storage

Coon Hunter Diaries uses Apple's Core Data framework to store hunt logs, dog profiles, notes, photos, and statistics directly on your device. All data remains on your phone unless you manually choose to delete the app or its data. If you change devices, data recovery depends on your personal device backups.

4. Leaderboard Data (Optional)

If you choose to submit statistics to the Global Leaderboard, limited hunting statistics (such as dog name and performance totals) are transmitted securely. Participation in the Leaderboard is completely optional.

5. Subscription Information

Coon Hunter Diaries requires an active subscription to use its features unless you previously purchased the app before it transitioned to a subscription model. Subscription purchases are processed securely by Apple through the App Store. The app does not receive or store payment information, Apple ID credentials, or billing details.

6. Security

Although the app does not collect personal data, reasonable security measures are used to protect optional Leaderboard submissions and maintain app integrity.

7. Updates to This Policy

This Privacy Policy may be updated from time to time to reflect changes in features or legal requirements. Any updates will include a revised effective date.
